

## PROTECT YOUR PHONE!

Smartphones are a treasure trove for advertisers and hackers. Protect your privacy and secure personal information by *searching for certain words at your app store.*

### FIND MY PHONE

If your phone is lost or stolen you need to make sure you – and you alone – can still access all your information.

Search in app store for:

- Find my phone
- Backup

### PRIVACY PROTECTOR

Take control by managing which apps are collecting your information and by travelling incognito from site to site.

Search in app store for:

- App permissions
- Virtual Private Network

### SECURITY GUARD

Antivirus apps block hackers and would-be thieves while password apps make sure your most secret information stays safe.

Search in app store for:

- Antivirus
- Password manager
