# Global messaging

Headquartered in Tartu, Estonia. Messente is a global provider of messaging, user verification, and two-factor authentication services.

We build tools that help organizations connect their services to people anywhere in the world.

# Global messaging

We deliver **over 300 million** business-critical SMS messages to **800+ mobile networks** in the world.

- Our messaging API removes the need to integrate different network operators.
- Reach any phone on any network using a single platform.
- Pay as you go. There are no monthly fees, commitments, or licensing fees.
