

Partnering with IPXO

IPXO in a Nutshell

IPXO is the first fully automated platform for managing, leasing, and monetizing IP addresses. It allows IP holders to generate income from unused resources by leasing them to vetted companies.

This helps businesses with surplus IPs profit while supporting others in overcoming IPv4 shortages to grow.

Together, we can build a sustainable and open internet

ADVANTAGES OF IPXO PARTNERSHIP

 Personal onboarding and constant support	 Unique system	 Additional revenue	 Fully automated system
---	--	---	---

IPXO PARTNERSHIP TYPES

Reseller Partner

Resellers rent IPs from the IPXO Marketplace and can re-rent them to their clients through the IPXO platform. Thus, the Reseller generates revenue by adding fees to IPs and is responsible for managing their clients' IP allocations.

Advantages

- ✓ Additional revenue from fees
- ✓ Unlimited scalability
- ✓ Control over client IP allocations

Referral Partner

Referral Partners can earn a fee by referring clients to the IPXO Marketplace, where clients manage their own IP allocations and are considered IPXO end clients.

Advantages

- ✓ Earn revenue by referring
- ✓ Unlimited scalability for clients
- ✓ Clients manage IPs themselves

Integration Partner

Integration Partners allow companies to integrate IPXO into their systems via API, giving clients direct access to manage IPs and the Marketplace.

Advantages

- ✓ Easy for customers
- ✓ All-in-one solution
- ✓ Increased revenue through scale
- ✓ Access to IPs without manual setup
- ✓ Skip ASN configuration, announcement, and routing steps
